

Dear colleague,

You are cordially invited to participate in **Israelectrochemistry 2021**, which continues the tradition of annual electrochemistry meetings bringing together electrochemists from academia, research centers and industry.

The 2021 electrochemistry face-to-face meeting will take place at Bar-Ilan University on June 17, 2021. The conference will be conducted under “TAV YAROK” and updated COVID19 instructions.

We are delighted to share the list of our plenary speakers:

- **Prof. Itamar Willner, from Hebrew University of Jerusalem**
- **Prof. Emanuel Peled, from Tel-Aviv University**
- **Prof. Doron Aurbach, from Bar-Ilan university**

The theme of the 2021 meeting is: **Electrochemistry – future trends and perspectives.**

Early registration is available until 15.05.2021 with cost of 200NIS.

After this date, limited spots for late registration will be available in the cost of 250NIS.

Registration is completed only after arranging the payment of registration fee.

YOUR UNDERSTANDING FOR THE NEED IN EARLY REGISTRATION, DUE TO COVID19 SITUATION IS HIGHLY APPRECIATED.

We encourage researchers to submit their contributions (oral presentations and posters), which deal with various aspects of electrochemistry, from sensing to energy and from basic research to applications, and to attend the meeting. The abstracts will be reviewed by the organizing committee.

Early Registration payment and Abstracts submission, should be done before 15.05.2021, according to the instructions posted in the conference website <https://israelectrochemistry.weebly.com/>.

Notice of acceptance for oral talk or poster will be sent until 23.5.2021.

We look forward to having you with us on ISEL2021

The organizing committee

Prof. Malachi Noked, Bar Ilan University (conference chairman), Malachi.Noked@biu.ac.il

Prof. Diana Golodnitsky, Tel Aviv University (President of ISEL), golod@tau.ac.il

Dr. Hadar Ben-Yoav, Ben-Gurion University of the Negev, benyoav@bgu.ac.il
