

Dear Friends and Colleagues.

We would like to inform you that in the framework of the activities of Israel Electrochemical Society we arrange the series of “industry” lectures for the students. The goal is to call the students’ attention to the possible practical applications of the electrochemistry studies.

The first lecture will be delivered by Dr. Galit Zilberman <https://elbitsystems.com/> and by Dr. Ervin Tal Gutelmacher <https://www.hydrolite-h2.com/company-profile/>

The lecture will be via ZOOM on Thursday, March 16th at 16:00.

Join Zoom Meeting
